

INTRODUCTION

Weird Doctors is a 3D-animated Art and Game project aiming to adopt cardano blockchain functionalities in an enjoyable playing experience. It is founded by 3D-artist Bob Joostens who is trying to deliver an awesome gameplay and tradeable NFT collection with rarity, multiple animated 3D characters and much more to make good use of the available options that web3 and the NFT world have to offer.

PROJECT GOALS AND VALUES

1

Make a fun game to play together!

how?

By buying our animated art you support the development of our very own 3D multiplayer platformer game.

The goal is to make it so you can connect your cardano wallet and use the animations from the NFTs you own to play the game.

Every collection will have a specific animation which will represent your player's medical approach in the process of saving lives.

why?

Because we want this project to be more than just animated artwork.

We want to build this into a community full of people having fun playing a game together.

We want to give the owners of the animations the ability to put their weird doctors to work!

2

Raise the bar in the world of NFT art.

how?

Each NFT will have:

- A unique combination of many traits.
- Detailed materials and textures.
- Multiple fully rigged 3D-animated characters.
- Manually brought to life with an eye for the 12 principles of animation.
- A place in a visually appealing world with doctors acting weird.

why?

Aren't you tired of seeing these projects popping up everywhere having the same 'easy-to-make' / unoriginal illustrations??
I am. I want to spend time and put effort in making the art stand out.

3

Try to help people in danger.

how?

By donating **20%** of profit to organisations that save lives.

why?

Like many of you, I believe in the power of helping people too.

If this project succeeds I want to make sure it has a positive impact on other people as well.

COLLECTIONS

Animation 1:

URGENT INJECTION

1000 NFTs
2 Animated characters
100+ total amount of traits
14 traits assigned / NFT

Public date : 02 April 2023
Public price: 140 ADA

Presale date : 01 April 2023
Presale price : 70 ADA

In future stages of development:

Avatars

represent your player's appearance.
and other player advantages

Animations (extending)

represent your player's
POWER UP in the game.

total supply, mint date, mint price and other details will be
announced during the build up time before the game releases.

UTILITY

Weird Doctors' internal development team will provide the project of it's own cardano native token. This token will be earned by simply staking your NFT's. This way we reward the owners for their purchases. You will be able to use this token to purchase extra game content in the form of NFTs as well.

The project will grow and build a game:
3D - multiplayer - 3th person - platformer
fast paced - action!

Based on the quantity and rarity of Weird Doctors held, you will receive an "X" amount of tokens. The exact amounts, frequencies and tokenomics will be communicated in future announcements.

GAMEPLAY

GAME MODES:

- ONLINE MULTIPLAYER
 - 1 VS 1
 - SINGLE RACE
 - MULTI LEVEL
 - TEAMWORK
- SINGLE PLAYER
 - Play local on your device to practice game controls and tactics.

OBJECTIVES:

- HELP YOUR PATIENT!

These weird doctors are getting really competitive. You don't want some other weirdo to steal your spotlight, do you? Maybe if you get there as fast as possible, you might be rewarded with a token for saving your patient's life.

In short: Finish first in an obstacle race to your wounded companion.

More information on how the NFT's will be implemented in the game will be announced in whitepaper v2.0

OWNERSHIP

Full ownership and commercial usage rights of all Weird Doctors NFT's are granted to the respective NFT owner.

Subject to your continued compliance with these Terms, the Weird Doctors project grants you a worldwide, royalty free licence to use, copy, and display the purchased art, along with any extensions that you choose to create or use, solely for the following purposes:

- (i) for your own personal or commercial use
- (ii) as part of a marketplace that permits the purchase and sale of your Weird Doctors NFT, provided that the marketplace cryptographically verifies each NFT owner's rights to display the art to ensure that only the actual owner can display the art;
- (iii) as part of a third-party website or application that permits the inclusion, involvement, or participation of your NFT, provided that the website/application cryptographically verifies each NFT owner's rights to display the art for their NFT to ensure that only the actual owner can display the art, and provided that the art is no longer visible once the owner of the NFT leaves the website/application.
